

Signpost wall mounted QW

Special mounting techniques allow for planar design without any visible screws.

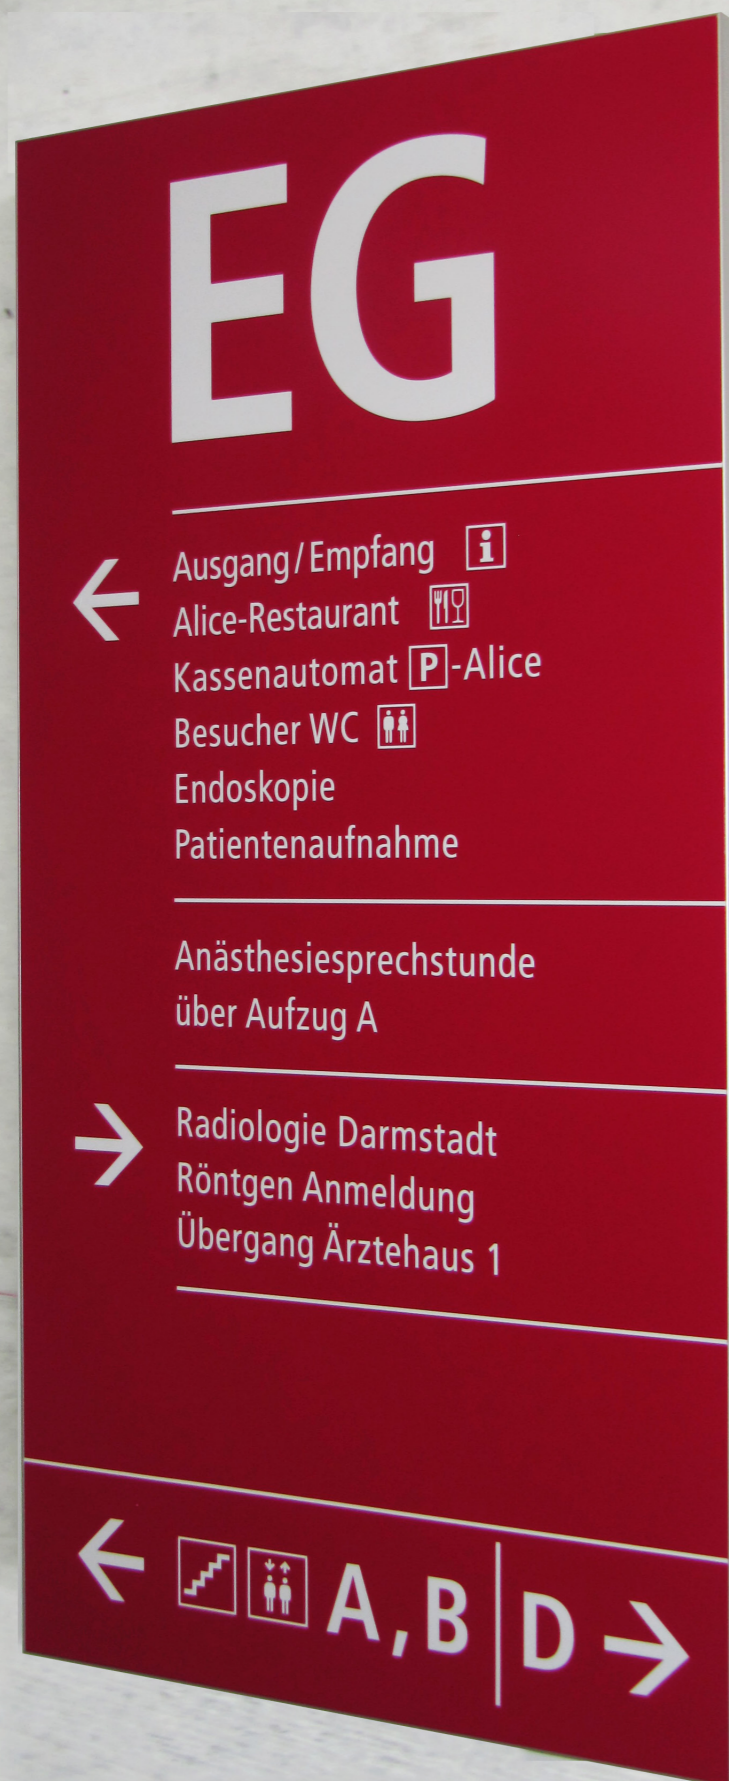

Signpost wall mounted QW

All elements of the quintessenz series strictly follow the design principle of maximal consistency.

■ Standard sizes

Standard sizes

Our production site supports automated programmes for the given standard sizes.

Individual sizes

for QWA and QWAI are supported up to a maximum of 1.490 x 2.990 mm. The different designs are applicable both vertically and horizontally. QWA and QWI are also suitable for exterior application. Therefore, they dispose of hidden magnetic locks against unauthorized removal which can be ordered separately.

The QWV model

supporting customizable labelling up to 600 x 840 mm is suitable for interior application only.

quintessenz wall mounted signposts consist of a completely justified metal body and a permanently labelled plain.
