Media and Information Stele victoria

An appealing way of presenting
important information

Optical Emphasis

An optional LED lit foot emitting white or coloured light underlines the stele´s adaptability.
This is strongly supported by an elegant and trendy design due to a minimal contruction depth of only 100 mm. Thanks to our material direct print and a fully customizable backside, **victoria** perfectly fits in to your corporate identy.

Hardware endowments

The standard version of the victoria media stand comes with an integrated 49-inch display in portrait orientation, including a computer unit:

- **Monitor**
  - 49˝ LED Touchscreen optionally available
  - Resolution: 1.920 x 1.080 FullHD
  - Brightness: 450 cd/m2
  - Contrast: 5.000:1

Chassis design

The sandalone aluminium element is equipped by a powder-coated steel foot. Alternatively, a finely brushed stainless steel foot is available. Nevertheless, our LED lit and seemingly hovering foot piece is a special highlight.
The stele´s modular design featuring easy PC and display exchange provide easy servicing and maitenance.

Optionally available

- **Content-Management-Software**
- Individual graphics and colour design
- Foot made from stainless steel or LED lit
